## Narrative

At first when I entered the hospital I was crying like a baby and bleeding like a fountain all over. Then I stopped bleeding it was scary I was in 1st grade. I was hiding like in hide and seek under a chair. Then they found me and put me on the thing so I can get stitches & doctors had to hold me down like a wild dog. I was getting stitches I + butt like metal being in my head then I felt soothng like a dog lying me they were sewing my head. I was falling asleep when I wore up I got three pop-sicles a book and a bandaid for my head.
